

March 26, 2020

Dear Valued Montran Customers,

Together, we are all facing a truly unprecedented situation. Our thoughts are with all those who have been impacted and affected. At Montran Corporation, our priority continues to be the health and safety of our team members, customers, partners and our broader community.

The Montran Board of Directors wishes to assure its customers that the support provided by our company remains strong and uninterrupted. Montran has officially activated our ISO certified Business Continuity Protocol. This proven process guarantees continuous maintenance and support, ongoing development and installations, project management, professional consulting services and a commitment to retaining the integrity and principles that have made Montran pre-eminent in the payment industry for 40 years.

All Montran personnel are either working remotely or visiting their offices on a restricted basis and remain ready and able to support our customer base. We at Montran view our international community of customers and employees as an interconnected and inseparable network. We will continue to provide the same level of attention and service that you have come to expect as a part of the Montran family.

While we will continue to monitor and follow the guidelines set forth by the government authorities in the communities around the world where we do business, we will come back to you with updates as and when appropriate. As always, you can also reach out to your Montran Regional Account Manager as needed.

We wish everyone the best of outcomes and are committed to persevering together in all the days and years ahead.

Montran Corporation Board of Directors

Alexander Esca, Chairman
